

Patcharapon Pluimnetr

BirthDate: 1995 **Age :** 30 **Phone:** 098-0282823 | **Email:** masamunekung@gmail.com

Professional Summary

A dedicated and resourceful IT professional with a Bachelor's degree in Information Technology and extensive hands-on experience in IT infrastructure, network administration, system support, and vendor management. Proven track record of scaling user support from 300 to over 1,700 users, implementing server solutions, and optimizing workflows using modern AI automation tools. Fluent in communicating across diverse teams, with conversational skills in English and a foundational understanding of Japanese.

Technical Skills

- **Networking:** Cisco Routing & Switching (VLAN, Inter-VLAN, Trunking, Telnet, SSH, IP Route), Fiber Optic coordination, Router/Switch/Wi-Fi configuration.
- **Systems & Servers:** Windows Server (Active Directory, Group Policy, DNS, DHCP), VMware, FTP Server setup.
- **Hardware & Security:** PC & Printer Repair, CCTV & NVR installation (with sensor alarm configuration), Biometric Access Control (ZKTeco Face Scanner & Attendance Server).
- **IT Management & Tools:** GLPI Asset Management, Microsoft Admin Center, ERP (Front-End Support for Purchase, Store, HR, Logistics), ISO 9001 compliance.
- **Telephony:** IPBX system installation and IP Phone configuration.
- **Automation:** AI-driven Excel Macros, Google Apps Script (LINE notification integrations).

Work Experience

IT Management Officer

HIMILE (THAILAND) CO., LTD. | 2023 – Present

- **Infrastructure & Networking:** Engineered and established the company's internet infrastructure during relocation, coordinating directly with fiber-optic layout contractors. Configured core network equipment including Cisco routers, switches, and machinery network connections.
- **User & System Support:** Successfully managed and scaled IT helpdesk operations to support a growing workforce of 300 to 1,700+ users. Provisioned domain-compliant workstations and handled basic troubleshooting for ERP modules (HR, Logistics, Purchasing, and Store).
- **System Administration:** Maintained Windows Server environments (AD, Group Policy, DNS, DHCP) and VMware virtual machines. Set up an FTP server for manufacturing machinery data transfers.

- **Asset & Vendor Management:** Leveraged GLPI to inventory domain-connected assets. Managed software procurement and licensing via Microsoft Admin Center. Audited, tagged, and approved corporate IT assets and hardware purchases.
- **Automation & Development:** Utilized AI to design Excel macros and created automated notification systems (e.g., medical inventory expiration alerts) linked to LINE via Google Apps Script.
- **Security & Telecom:** Installed and configured IPBX telephony systems, IP phones, ZKTeco biometric face scanners with attendance servers, and advanced CCTV/NVR monitoring networks with motion-triggered audio alerts.

Freelance IT & Network Installer

Family Business (Apartment) | 2022 – 2023

- Independently designed, deployed, and configured the full Wi-Fi network, internet routing infrastructure, and CCTV security systems for a family-owned apartment building.

MIS Officer

TUNTEX TEXTILE (THAILAND) CO., LTD. | 2020 – 2022

- Diagnosed, repaired, and maintained corporate computer hardware, workstations, and printers.
- Provided swift technical assistance to employees through remote support tools.
- Conducted monthly hardware audits and documentation compliance strictly adhering to ISO 9001 standards.

Education & Credentials

- **Bachelor of Science (B.S.) in Information Technology**
 - *Thai-Nichi Institute of Technology (TNI)*
- **Certification:** CCNA (Cisco Certified Network Associate) Training Course – *9hua*
- **Military Status:** Exempt (Completed Reserved Officers' Training Corps)

Languages

- **Thai:** Native
- **English:** Conversational (Comfortable in professional multi-cultural environments)
- **Japanese:** Basic/Elementary (Passionate learner with foundational understanding)
